Increase Profit & Revenue

Our end-to-end dealer solution is designed to increase your bottom line from sales-to-service. With an average of \$300+ in profit added to every sale and an average increase of more than 20 service appointments every month, your dealership will reap the benefits of Ikon for years to come.

Boost Customer Retention & Revenue

Ikon Technologies' DLR Suite includes an exclusive Dealer-Branded Mobile App to connect with your customers at No Additional Charge. Unique to Ikon's dealer solution, our Smart Marketing services offer service department's access to the industry's most timely and targeted marketing platform with no impact to your marketing budget. Your customers get the right message at exactly the right time with messaging like:

- Recall notifications
- Oil change reminders
- Warranty expirations
- Trade-in offers

Streamline Inventory Management

We don't just provide pinpoint accuracy, we provide visibility, control and access to your entire inventory with virtually no upfront expense. Take advantage of tools like:

- Geofencing
- Real-time Speeding Alerts
- Detailed Trip History
- After-hours Alerts

Monitor & Protect Assets

Ikon Technologies has your back. Nothing protects your inventory like knowing where every vehicle is 24 hours a day. And in the event a vehicle is stolen, Our instant access to law enforcement and Stolen Vehicle Recovery (SVR) program will help you locate and recover that vehicle in a matter of minutes.
